Historic Rock Ford Children and Family Programming Committee

This committee was developed with FUN in mind! We develop activities and events for pre-school and elementary-school aged children and their families. Everything we do is designed to introduce Historic Rock Ford, Edward Hand and early U.S. history in an engaging way.

Families enjoy Stories on the Porch in the summer, Stories in the Barn during the fall and winter, beautiful tea parties in the spring, and historically themed events for other holidays such as George Washington's birthday.

Members of this committee are asked to help with planning, which is done via a combination of digital communication and in person, when possible, and to attend the events that they help to plan. There are no regular meeting dates; only those required to prepare for and help with upcoming events.
